FIRST 5 NEVADA FAMILY LEADERSHIP COUNCIL

First 5 Nevada Family Leadership Council (F5N FLC) ensures that parents and families with lived experiences with young children have leadership and decision-making roles in early childhood systems.

This can include the development and implementation of policies, procedures, and resources to support equitable access to programs and services for the prenatal to age eight population.

WHAT IS FAMILY LEADERSHIP, AND WHY DO WE USE THIS TERM?

Family leadership is an all-inclusive term encompassing the full spectrum of family structures. Leaders may be anyone who is in a caregiving role (e.g., birth, foster, adoptive parents; grandparent or family members; non-relatives; guardians) and has experience with services provided by maternal and early childhood systems.
